There are several components available for navigation within Audi applications. The appropriate type of navigation can be selected according to the specific application. Navigation components can be combined with an application to cover multiple levels. All in all, the navigation should be designed to be as simple as possible for the user.

### User Interface / Components / Navigation - Audi

An overview of Audi MMI®. The Audi MMI® (Multi Media Interface) system was created to streamline the controls for audio, vehicle settings, and available navigation under a common interface, thereby reducing the number of buttons for a cleaner interior appearance. Though specific features vary between models, the MMI® system in every Audi consists of a central dial, four soft keys, and dedicated buttons for each general function.
