Manual Shifting

Automatic Transmission Manual Shifting

A manual shift automatic transmission is a type of automatic transmission that is either not damaged by repeated manual shifting of the forward gears, or designed to be shifted from first to a higher gear without the use of a clutch or taking your foot off of the accelerator. This type of transmission is

Manual Shifting

Why Manual Is Better.

Most manual transmission drivers will tell you that the reason that they like driving manual is because it feels like real driving. With a manual car (or stick shift in the US) you have total control of the vehicle, you're more involved with the mechanics of the car and will find that it's an entirely different type of drive to that of an
