Control Manual (Volume 3) and any rig interface manual. It is essential that all key personnel are fully familiar with the content of these guidelines prior to drilling out of the 13 3/8" casing when HTHP conditions are anticipated. All requirements listed herein are applicable from the time the pressure transition zone is

## **Drilling Operations Procedure Manual - SPREAD**

Drilling is a key process in the development of geothermal resources, whether at the exploration stage or in a fully developed field. It constitutes up to 35-50% of project costs. Successful completion of a well at minimal cost is, therefore, imperative. One area that highly affects both successful completion of a well and its cost is the drilling fluid program. Drilling fluids have advanced ...
