EVs have fewer moving parts than Internal Combustion Engine vehicles, which means they have a smaller number of components in need of regular checkup and repair. However, a few things will need your attention from time to time: 1) Monitor the battery. In an electric car, the battery takes up most of the space under the hood.

What Maintenance Do Electric Vehicles Need?

Follow the vehicle owner's manual for intervals on flushing out the old brake fluid and replacing it with fresh fluid. Transmission Some electric cars, like the Tesla Model S, have a transmission or differential that needs transmission fluid to keep running smoothly.
