Description []. The Turkina is a powerful OmniMech that was first seen in the Turkina Keshik at the Battle of Tukayyid, and entered general service with Clan Jade Falcon following the end of the Refusal War. In a design oddity, the Turkina mounts enough jump jets to vault 90 meters hardwired onto the frame, rather than using them in modular pods. While this simplified repair, it also uses ...

The Ford Falcon was Australia's longest continuously running nameplate up to the cessation of local production in October 2016 - 56 years after it debuted as a US-based model. Ford's large car started to become more Australianised from the 1970s and it would eventually compete against the Holden Commodore in a famously fierce local rivalry.
