Chapter 4 Summary. In Chapter 4, the authors argue that data reveal that the primary reason for the plummeting crime rates in the United States in the 1990s is the 1973 Roe v. Wade Supreme Court decision generally legalizing abortion. The authors argue that because of Roe v. Wade, babies that would have been born are not being born in the 1970s. These same babies are the most likely to end up ...

Thus the new field of study contained in this book: freakonomics. Through forceful storytelling and wry insight, Levitt and co-author Stephen J. Dubner show that economics is, at root, the study of incentives — how people get what they want, or need, especially when other people want or need the same thing.

Freakonomics (Levitt, Dubner) - LitLovers

Freakonomics is a ground-breaking collaboration between Levitt and Stephen J. Dubner, an award-winning author and journalist. They usually begin with a mountain of data and a simple, unasked question. Some of these questions concern life-and-death issues; others have an admittedly freakish quality.

Summary of Chapter 4. Chapter 4 of Freakonomics addresses the sudden drop in crime rates during the 1990's, and the various factors which may have caused it. Astonishingly, research shows that one of the major factors contributing to the drop in crime rates was the establishment of Roe v. Wade. Chapter 4 weighs this theory against other theories such as "tougher gun laws," "number of police officers per capita," and "increased use of capital punishment."
