Freelander 2 manual gearbox problem with 3rd and 4 th gear ...

Cause: Ball pin on transmission shift lever at the gearbox end may not be tightened to torque and could eventually work loose. When it works loose, fore / aft gear shift motion will become stiff (cable touches other cable and cast face) eventually the ball pin may work it's way out.

Freelander 2 manual gear selector problem | LandyZone ...

I had a Freelander 2 internal gearbox failure at 55k. Car bought from main dealer as pre-owned vehicle and serviced at main dealer according to service interval. I was informed that I do not meet their criteria for help with costs for repair (£3700) even though I have bought two commercial Land Rovers. What are my rights or best advice to get costs met by main company?

Freelander 2 gearbox failure | Ask Honest John | Honest John

Hello All, This is my first 'real' post so I hope I've got it in the right section and all! I am hoping that some of the more technical people out there can put my mind at ease regarding a problem I have with the auto gearbox on my Freelander 2. I bought the vehicle only a couple of weeks ago (it's a 2007 model with 110k on the clock).

Land Rover Freelander II 2.2 TD4 Auto gearbox problem

Freelander 2 / Evoque - Common Problems And Symptoms I f there is a drumming or humming sound coming from the rear of your Freelander 2 or Evoque, the chances are the rear diff bearings are failing. This is very common on the 2007-2011 models and can occur even in very low mileage vehicles.

Freelander & Evoque Transmission Issues - Symptoms - Bell ...

Freelander 2 - Steering Faults. If you can hear a whine when you are steering then there are three common causes, the first to check is the reservoir, there is a gauze at the bottom which can get blocked and cause a lack of oil to the pump. Secondly if as well as the whine (which is worse on full lock) the steering is starting to feel heavier especially at low speed or when parking that can be a sign that the steering pump is on its way out.

Land Rover Freelander 2 SUV (2006-2014) owner reviews: MPG ...

Previously a Freelander 1 owner, I had the usual run of expensive technical problems with that, but the ride and off road capability was excellent. I bought the Freelander 2 from new as I wanted one with a sunroof and they didn't appear on demonstrators. I do fairly high mileage 35000 miles in 18 months. The economy is much better than the mark 1.

After discovering the PTU has likely failed on a Freelander 2 (2007) I am maintaining for a charitable trust, I've looked into having the PTU replaced. The local LR mechanic won't replace it with the recon unit I can have shipped from UK to NZ for around NZ\$1000 all up. He wants to supply the same part for NZ\$2k. Plus labour of around \$500.
