Longman's New Concept English by L. G. Alexander is a popular English language textbook teaching the British rules of English. The course was first published on October 30, 1967. A revised edition, which was "specifically prepared for Chinese learners", came out in 1997.

The course consists of four components:

supply students with the skills of public address, a fundamental understanding of critical thinking practices, foundational tenets of communication theory, a grasp of the relationship between context and communication, and a sense of the social responsibility that comes with the capacity for communication.

Courses: Summer Sessions: Loyola University Chicago

Of course, creating and distributing a handout alone does not typically solve learning problems. A number of scaffolding activities occur before and after students read the handout. First, students read, summarize, and evaluate a short passage in class. Second, students describe what they did while they read, summarized, and evaluated.

Reading Philosophy with Background Knowledge and Metacognition

Chap. 1 includes introductory discussion
