Engines and Components

MAN has introduced its new D08 SCR engine for TGL and TGM models. It incorporates the SCR system and dispenses the EGR, and is offered in versions of four and six cylinders. The German brand also introduces new functions for its Tip Matic gearbox while optimizing the interior of its vehicles, with the location of the rotary shift control in the center console as the main novelty.

MAN launches the new D08 SCR engine for its TGL and TGM ...

Achieve more with less: the new generation of MAN D08 engines offer even greater performance and reliability on the roads, despite using up to 5% less fuel. Our secret: reducing down to the essentials. Thanks to much simpler exhaust-gas cleaning and cooling systems, the engine is lighter, less complex and more efficient.

The MAN D08 engine is a sturdy lightweight among MAN bus engines and can handle very high payloads. The exhaust gas treatment system with SCR (Selective Catalytic Reduction) also significantly reduces nitrogen oxide emissions. The compact design makes the D08 very easy to access, which means that maintenance effort will be significantly reduced.

As the bus and coach industry worries about Van Hool vehicle failures that appear to implicate MAN D26 engines, the German heavy-duty engines giant has moved to clarify its position. MAN Truck & Bus UK – which wrote to all customers with Euro 5 D26 engined trucks, suggesting a maintenance check be carried out on the EGR (exhaust gas recirculation) system – says the problem with Van Hool ...

Euro 5 D26 truck engine checks: MAN explains

The engines in MAN's D08, D20 and D26 ranges are equipped with two-stage turbocharging and external exhaust-gas recirculation (EGR). The steplessly controlled EGR system has a recirculation rate of up to 30 percent and reliably reduces the nitrogen oxide in the engine to under the statutorily prescribed

limits.

...

The 18-tonner pulls away cleanly when starting and gear changes are pleasantly smooth. The powerful engine means you barely notice if you're driving empty or with a load", Durante describes her driving impression. "It's also precise when manoeuvring and the background noise is spot-on - just enough to still hear the engine."
