We have gathered the seven most important challenges for the leaders of tomorrow: 1. Awareness of leadership. In recent years, leadership has caught the attention of expert sociologists and managers of big companies. Nearly all of them agree on the positive effects good leaders have had on the efficiency of organizations. Without awareness of leadership, it is, and will be, much more difficult to achieve any success at all.

The 7 Great Challenges for the Leaders of Tomorrow

Recognizing the potential technologies available to optimize internal efficiency, or to avoid letting a product or service become technologically obsolete, is a large challenge for management. Consumers and governments both penalize companies who have a large adverse affect on the environment (or reward those who have a positive impact).
