Postmodernist film is a classification for works that articulate the themes and ideas of postmodernism through the medium of cinema. Postmodernist film attempts to subvert the mainstream conventions of narrative structure and characterization, and tests the audience's suspension of disbelief. Typically, such films also break down the cultural divide between high and low art and often upend ...

In the distinction between fiction and documentary film, the animal on screen often presents us with a bridge across the gap between these two categories. Occupying a sort of limbo space, I would like to suggest that the animal on film is an embodiment of the contradictions that force the human mind to search for coherence and meaning in film.
