Recently someone allowed me to borrow a book entitled "The Chicken From Minsk". It contains many different traditional Russian math and logic problems, some of which are very irritating. If you solve the problem below post a comment on the explanation. For those of you who don't feel like solving it, I will post the solution next week.

Search Tips. Phrase Searching You can use double quotes to search for a series of words in a particular order. For example, "World war II" (with quotes) will give more precise results than World war II (without quotes). Wildcard Searching If you want to search for multiple variations of a word, you can substitute a special symbol (called a "wildcard") for one or more letters.
