A strong banking union would also have limited the concentrated exposures of banks to certain risks. For example, euro area—wide supervisors would arguably not have allowed size, structure, and concentration risks to grow as they did in countries such as Cyprus, Ireland, and Spain, or general banking weaknesses to have accumulated in some other places.

Although heavy equipment mechanics and diesel mechanics work on similar vehicles, their roles are different. For example, some projects will require multiple mechanics so the diesel mechanic would likely focus on the diesel engine while a heavy equipment mechanic would focus on the body and other mechanics of the vehicle.
