SWITCH SUNSET WEATHERPROOF 16A IP66 - HSC1105S | CABAC

Weatherproof Sunset Switch: The Weatherproof Sunset Switch is used to switch outdoors lights (or indoors light when applicable) off when they are not required in daylight. In its most basic form, the unit senses outdoors light level and switches a relay on and off, thus turning the lights wired to it on or off.

Hi, in your use case wouldn't it be easier just to use an off the shelf time switch? Normally they have a random on/off integrated. But to answer your question: in this use case I would switch the if-else-statement and check for sunset_time and a new parameter called e.g. elevenoff that is set to 23:00hrs. If the time is in between — switch on.
